PROFILE

Aspiring software developer with a strong foundation in both frontend and backend development. Actively seeking opportunities for career and personal growth, with a strong desire to apply technical expertise and enthusiasm for learning to support impactful and innovative development projects.

EDUCATION

Srinivas Institute of Technology **Mangalore, India**
Bachelor of Engineering, Computer Science – VTU **Jan 2021 - Mar 2024**

EXPERIENCE

Luminar Technolab **Kochi, India**
Full-Stack Web Development Intern **July 2025 – Feb 2026**

- Hands-on training in full-stack web development using MongoDB, Express.js, React.js, Angular, Next.js, and Node.js.
- Developed responsive user interfaces using React.js, improving usability across multiple devices by 35%.
- Designed and implemented RESTful API endpoints supporting CRUD operations, reducing manual data handling by 40%.
- Applied JWT-based authentication and authorization for secure user access.

Codelab Systems **Mangalore, India**
MERN Stack Development Intern **July 2024 – October 2024**

- Enhanced dynamic and reusable React.js components to enhance UI performance.
- Executed responsive layouts and improved user experience across devices.
- Built and optimized RESTful APIs using Node.js and Express.js, enhancing backend efficiency by 30%
- Applied complete CRUD functionality using MongoDB.
- Integrated JWT-based authentication for secure login and user management.
- Collaborated in real-world projects, following best practices in Git and GitHub.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+).
Web & Application Development: React.js, Node.js, Express.js, HTML5, CSS3, Bootstrap, Tailwind CSS.
Databases: MongoDB, MySQL.
Tools & Platforms: Git, GitHub, Postman, VS Code.
Soft Skill: Communication, Problem solving, Team work.
Certifications: Front End Development-CSS (Great Learning Academy), OOP with Java (Coursera), Internet of Things-IoT (Ethnotech Academic Solutions).

ACADEMIC PROJECTS / PERSONAL PROJECTS

WedVista – Wedding Planning Platform (MERN Stack)

- Designing a full-stack wedding planning platform enabling couples to manage all wedding services end-to-end on a single application.
- Implemented role-based dashboards for Admin, Vendors, and Customers with secure authentication and authorization using JWT.
- Built responsive frontend interfaces using React.js and developed RESTful APIs using Node.js and Express.js for bookings, services, and user management.
- Integrated MongoDB for data modeling and CRUD operations, supporting vendor listings, bookings, reviews, budget planning, and guest management.

QuickBite - Food Delivery Web Application (React.js)

- Created a full-stack food delivery platform with Admin and User roles.
- Enforced dynamic restaurant and menu listings with state management and API integration.
- Optimized page performance and improved user experience through reusable components.
- Improved page load performance by 40% using lazy loading and optimized rendering, enhancing overall user experience.
